+SEPTAGO

Why is this a great choice?

+SEPTAGO antibacterial hand lotion is a bactericidal, fungicidal and virucidal preparation. The content of 70% alcohol perfectly handles microbes, leaving hygienically disinfected skin on the hands.

+SEPTAGO has a soothing effect on the skin of your hands

Liquid reinforced with glycerin, which minimizes the risk of skin irritation and soothes the drying effect of ethyl alcohol, thanks to which the skin of the hands is properly moisturized and regenerated. The liquid is ready to use without water and without rinsing, it is quickly absorbed and leaves no feeling of stickiness.

+SEPTAGO has a pleasant smell

As one of the few on the market, it has been enriched with menthol, which leaves a pleasant, crisp mint smell, fresh lightness of the hand, and a feeling of refreshment and relaxation.

+SEPTAGO has other uses

The fluid is great for decontaminating all surfaces and tools with which we come into contact on a daily basis, which significantly reduces the spread of pathogenic microorganisms.

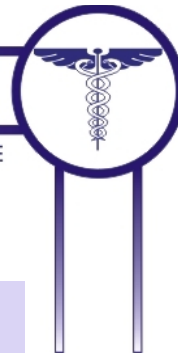

+SEPTAGO always at hand ...

Ideal for use at any time of the day A handy bottle ensures comfortable use, carrying and storage in a purse, pocket or car. Ideal for use when shopping, when we are most exposed to contact with germs.

+SEPTAGO Product from our country

A fluid developed by a Polish producer from certified intermediates from Polish suppliers, supporting the local market and Polish entrepreneurs.

SEPTAGO®

1. What is SEPTAGO

SEPTAGO is an antibacterial hand lotion which is a bactericidal, fungicidal and virucidal preparation. The content of 70% alcohol perfectly handles microbes, leaving hygienically disinfected skin on the hands. A fluid developed by a Polish producer from certified intermediates from Polish suppliers, supporting the local market and Polish entrepreneurs.

2. Advantages of SEPTAGO

Liquid reinforced with glycerin, which minimizes the risk of skin irritation and soothes the drying effect of ethyl alcohol, so that the skin is properly moisturized and regenerated. As one of the few on the market, it has been enriched with menthol, which leaves a pleasant, crisp mint smell, fresh lightness of the hand, and a feeling of refreshment and relaxation. In addition, it works great for decontamination of all surfaces and tools with which we come into contact every day - this significantly reduces the spread of pathogenic microorganisms. The liquid is ready to use without water and without rinsing, it is quickly absorbed and leaves no feeling of stickiness, ideal for use at any time of the day. The handy canister ensures convenient use, handling and storage.

3. How to use SEPTAGO:

HANDS: Apply a small amount (about 3ml) of liquid to your hands. Rub into the skin of the hands, top, bottom and between the fingers for about 30 seconds. Do not rinse.

SURFACES: Spray the preparation on the surface from a distance of about 30 cm ensuring that it is completely covered. Wait 60 s. The preparation is not intended for surfaces in contact with food. Use several times a day as needed.
